

HEALTH BENEFITS OF *Coconut Oil* FOR DOGS

There are so many ways that giving your dog coconut oil regularly can support good health.

Clears up skin conditions like eczema, contact dermatitis and itchy skin

Disinfects cuts and promotes wound healing

Helps clear up ear infections

Improves digestion and nutrient absorption

Promotes normal thyroid function

Increases energy and helps reduce weight

Promotes good nerve and brain function and prevents dementia

Helps build strong bones

Eases inflammation and can help with arthritis discomfort

Start by giving 1/4 teaspoon daily to small dogs or 1 tablespoon daily to big dogs and gradually increase the amount. If your dog tolerates it well after two weeks, increase the dose to 1 teaspoon per 10 pounds (4.5 kg) of body weight.
